TRANSPARENCY

Transparency builds trust

Trust in decision-making

- Science and technology
- ‘Other legitimate factors’

Transparency in science

- Source of funding – but should not be used dismissively
- Methods and results
- Reproducibility
- Peer review process

ROLE OF IDF

Science- and evidence-based
All dairy chain stakeholders
All dairy-related topics
Global consensus building

Challenges

- **Population growth and development**
- **Sustainable, healthy nutrition**
- **Evaluation and introduction of new technologies**

Collaboration is key...

... and needs trust, hence transparency
